PUSHKAR NILESH KHOLLAM

Pune, India | +91 9922852649 | khollampushkar@gmail.com

Portfolio: puhskar-khollam.netlify.app | **LinkedIn:** linkedin.com/in/pushkar-khollam-94a845277

CAREER OBJECTIVE

Aspiring Cloud & DevOps Engineer and B.Sc. Computer Science graduate currently pursuing an M.Sc. in Computer Applications. Possess foundational knowledge of AWS, Linux, Docker, Kubernetes, Git, and CI/CD tools. Seeking an entry-level opportunity to apply my technical skills in cloud infrastructure management, automation, containerization, and application deployment while continuously developing my expertise in Cloud and DevOps technologies.

TECHNICAL SKILLS

Cloud: AWS (EC2, S3, IAM, VPC, RDS, Route 53, CloudFront, Lambda, SNS, SQS, CloudWatch, AWS CLI)
DevOps & CI/CD: Docker, Kubernetes (fundamentals), Terraform (basics), Jenkins, GitHub Actions, Git, GitHub
Operating Systems & Scripting: Linux (Ubuntu, Red Hat), Windows, Python, Bash, Shell Scripting
Monitoring: Prometheus, Grafana, Amazon CloudWatch
Networking: TCP/IP, OSI model, IPv4 subnetting, NAT, DHCP, DNS, ports, TCP/UDP
Databases & Web: PostgreSQL, MySQL, DBMS/RDBMS, REST APIs, HTML, CSS, JavaScript, PHP, YAML, JSON

EXPERIENCE

Cloud & DevOps Intern | Exlearn Technologies | June 2026 – Present

- Gained practical exposure to AWS services including EC2, S3, IAM, VPC, and RDS.
- Used Git and GitHub for version control and worked with Docker containerization and Kubernetes fundamentals.
- Worked with Terraform basics and CI/CD tools including Jenkins and GitHub Actions.
- Used Linux (Ubuntu and Red Hat) and Bash scripting for basic system administration tasks.
- Explored infrastructure monitoring with Prometheus, Grafana, and AWS CloudWatch.

On-the-Job Trainee – Web Development & API Handling | Vspire Innovations | Apr 2026 – May 2026

- Completed 120 hours of training in REST APIs and Axios for asynchronous data requests.
- Connected responsive frontends with backend services and debugged/tested application code.

PROJECTS

AWS-Based Web Application Deployment Using Docker Technologies

- AWS EC2, Linux, Docker, Git, GitHub, Shell Scripting
- Configured an AWS EC2 instance to host a web application and used Linux commands to manage files, permissions, and system operations.
- Created a Docker file and deployed a containerized web application on an EC2 instance.
- Used Git/GitHub for source control and practiced server configuration, security groups, networking, troubleshooting, and basic shell-task automation.

Zoo Management System (Team Project)

- Developed a web application using PHP, MySQL, and JavaScript to manage animal, staff, and operational records.

Student Result Management System (Academic Project)

- Built a system using JavaScript and SQL for student-result entry, processing, and retrieval.
- Portfolio Website: Designed and deployed a portfolio website showcasing technical skills and projects. View portfolio

EDUCATION

M.Sc. Computer Applications (Pursuing, 2025–2027) | Savitribai Phule Pune University | SGPA: 8.64
B.Sc. Computer Science (2022–2025) | Savitribai Phule Pune University | CGPA: 7.75

CERTIFICATIONS

- AWS APAC Solutions Architecture virtual experience program - Forage
- Cloud and DevOps Mastery – Exlearn Technologies, Pune
- C Programming Certification
